

Thermal Lamination Film Glueable, Stampable

PCT-2(DL) GS

Description

It is BOPP based, one side gloss coated and other side extrusion coated BOPP film for demanding lamination application. The gloss side is scratch resistance glueable, stampable premium coated finish designed to accept UV spot coatings, Hot stamping, cold stamping and all other post lamination process.

Features

- Special scratch resistance glossy surface
- Glueable and stampable
- Suitable for UV-coating, embossing and hot foil stamping & glueing process.
- Fibre-tear bond strength with paper

Applications

- Thermal lamination with all kinds of printed, unprinted papers, cosmetics & liquor cartons, coffee table books, magazines, brochures, manuals, shopping bags, wedding cards, gift boxes, diaries and specifically recommended for luxury packaging.

Special Instructions

- Cosmo thermal GS gloss film can be laminated with the temperature range of 100 to 120 deg C. However the optimum conditions may be selected based on the lamination speed (Dwell time) and dimensional stability.
- Please make sure that the printed surface is well dried before lamination.
- Strongly recommend to handle with care and cleanliness as it may spoil it's look by rough handling, dust contamination and scratches.
- It is advisable to cool sufficiently one surface before proceeding the lamination to other surface.
